Another attempt was made on Thursday last to destroy life on the Eufaula branch of the S. W. Railroad, by placing a crosstie upon the track. The cow-catcher proved the salvation of the train. A. J. Orme, Esq., of Atlanta, has just concluded the purchase of 1,750 acres of valuable land in Baker county. An accident occurred near the Paulania bridge, five miles east of this place, on the S. W. Railroad, on Wednesday morning, to the night train from Macon. The only casualty reported, is a broken collar bone to Mr. Goode of Macon, sustained by leaping from the platform. [Guilbert Appeal.

☞ An ocean cable costs between four and five million dollars.

☞ In 1869, 258,989 immigrants arrived in New York.

☞ The railroad from Louisville to Chattanooga is being vigorously agitated. It is probable that Louisville will subscribe $2,000,000.

☞ The St. Louis Republican is not complimentary to the Congressional Reconstructionists. It irreverently says "The long, long weary day has passed in gab away, and drivers chattering idiots drivel about those everlasting reconstruction blunders."

Trade in Produce.

The Chattanooga Times contains the following paragraph, showing that the tide of provisions South, does not slack up. Of course the cotton money streams out as the produce rolls in;

The shipments of corn, flour, and other articles of produce to the South, are now very heavy. One house in Atlanta recently had twenty-five cars of corn pass through here in one day, consigned to them.

The Southern Railroad.

The scotching of the road from Cincinnati to Chattanooga, by the Kentucky Legislature, has resulted in the effort to get Congress to charter the road through Kentucky, with probability of success.

The Louisville Courier-Journal has been fighting the enterprise. We are not posted upon the merits of the Kentucky opposition to this great project. Atlanta is interested in the construction of the road. Therefore, we are for it.

But it seems to us, that upon general principles, the opposition is wrong. This road gives transportation and development to one-third of the State of Kentucky. And while it may do injury to other portions and other roads, that is no reason to kill it. Let it hurt. The liberal policy is the correct one. We believe that anybody that wants to, and can build a railroad, should have the privilege of doing so. The use of capital for this purpose should not be restricted.

Sometimes great lines are opened up with the pledge of monopoly for a term of years, to induce capitalists to take hold. During that term State aid should not be given to rival schemes. But here the restriction should stop. If any section wants a road, and has the money to build it, the charter should not be withheld.

We are great believers in equality of privilege, and then the deuce take the hindmost. Open the field to the world, and give the prize to the honest winner.

We think Kentucky has made a mistake in refusing this charter; and we believe a more liberal policy would have been proper and beneficial.

OUR WASHINGTON LETTER.

Speeches on the Georgia Bill—Revels Makes a Sensation and Draws a Crowd—The Washington Chronicle—Mere Mention.

Special Correspondence of The Constitution.

WASHINGTON, March 16, 1870.

The Georgia question is likely to occupy the Senate for some time to come, though much of the ground gone over day by day is the same that has been so fully traversed in the cases of Virginia and Mississippi. Mr. Trumbull opened the debate on Monday last, with a most excellent speech, on the line of argument indicated by the recent report of the Judiciary Committee, and in opposition to the proposed extension of official terms in Georgia. Mr. Stewart took the floor when Mr. Trumbull had concluded, and occupied the time until the Senate went into Executive session, with a violent and prejudiced ultra Radical speech in the interest of Bullock & Co. An immense number of negroes, men and women, filled the Senate galleries to overflowing on this day, in anticipation of a speech from the colored Senators, Revels; but were disappointed. Yesterday Mr. Stewart concluded his remarks, and was followed by Mr. Edmunds, who made an exceedingly good speech, one of the best heard this session, in defense of the Bingham Amendment. Mr. Edmunds was clear, logical and convincing in his remarks, and was listened to with an unusual degree of attention. Stewart, on the contrary, was not listened to by half a dozen Senators, which made the contrast more marked. The star thus far, however, is

SENATOR REVELS, COLORED.

Who attracted to-day, perhaps, a larger audience than was ever before assembled within the walls of the Senate Chamber. Every available foot of space within the galleries was occupied by a dense mass of black and white humanity. Every door opening with the galleries had a crowd about it, and some persons, more fortunate than others, had procured chairs upon which to stand, and from these vantage points looked over the heads of the occupants of the galleries, upon the Senate floor. Upon the expiration of the morning hour, Revels commenced reading his speech from a manuscript, (furnished by Bullock) in a clear and distinct voice. President, he pronounced, with the accent on the last syllable, after the manner of his worthy ally, "Beast" Butler. There was little fault to be found, however, with his reading. When he had concluded,

SENATOR MORTON

took the floor, and said the Senate had lost nothing by the absence of Jefferson Davis, but had gained much in patriotism and loyalty. Morton then proceeded to argue that the Georgia Legislature has never been legally organized, and that the present Government of the State is simply provisional. He said, further, that every officer of the State is subject to removal to-day, by General Terry; that they hold their offices, every man of them, at the will of the military authorities. Morton was frequently "cornered" by questions by Mr. Edmunds, which he was unable to answer without exposing himself in misstatements, and so he declined to be further interrogated. Later, however, he was interrogated by Messrs. Carpenter, Trumbull and Conkling in such a manner as to indicate very clearly that these gentlemen were not in accord with the Speaker. This showing of hands gave much encouragement to the Bryant delegation; and proportionately discouraged the Bullockites. Prince, who had been squinting up at the reporter's gallery, and quivering like a gorrilla, dropped his under jaw; and Bullock, whose ghastly pale face had been partially illumined by a sickly smile, assumed an expression indicative of a stomach or some other ache. Morton concluded by wailing out that Georgia was being deluged with the blood of Union men; that murders were being committed by the hundred, and the murderers walked the streets at noon-day; that there was no protection for Union men; and that it was now proposed to protect rebels, and murderers, etc., etc. Morton did not receive much attention during the delivery of his harangue. In this respect Bullock's attorney is the Senate appeared to no better advantage than Butler, his attorney in the House. Butler, by the way, was on the floor during the reading by Revels of Bullock's speech, and a number of the members of the [illegible] went into Executive session. The speech was concluded this morning, and Georgia will [illegible] Senate wants to speak. You can calculate from these facts how long the Georgia debate may last.

THE BULLOCK-BLODGETT ORGAN.

The notoriously corrupt and easily purchased Chronicle, of this city, continues the manufacture of telegrams, and lying editorials in the interest of the ring who have the expenditure of the revenue of the State Bullocked. The Bryant delegation, not having the treasury of Georgia at their back, are not able to obtain a newspaper organ; and have to resort to the printing and distributing of pamphlets to procure a hearing for their side. Of their recent campaign documents, may be mentioned, the letter of the Hon. Joshua Hill, written in 1866, and giving his Union record; a letter from Captain Bryant, to Senator Sumner, exposing the Bullock-Blodgett ring; an appeal from wealthy and influential citizens of Georgia, to the Senate, to pass the Georgia bill, with the Bingham Amendment, without delay, and thus restore peace in Georgia; and a pamphlet entitled "Governor Bullock and the Georgia press," containing an editorial from the *Atlanta Intelligencer*, on the Bingham Amendment, published as a special telegram in the Chronicle of this city, as emenating from "the oldest and most conservative Democratic newspaper in the State." To this telegram Messrs. Bryant and Bowles append a statement that the *Intelligencer* is in the pay and under the control of Bullock; and that the Macon Telegraph and other Democratic journals, are, or have been, in the pay of Bullock, and that their defiant tone is intended and calculated to advance his interests, by conveying the impression abroad that the State is still rebellious, and must be kept down. I have not the pamphlet before me, and do not pretend to give their exact words, but they are of this tenor.

The Democratic press of Georgia will no doubt have something to say in reply to this statement.

MERE MENTION.

The Sutro Tunnel is beginning to be considered a great bore in Congressional circles.

John E. Owens is *shingling* at the National Thatre.

The "Violets of the Stage." (Chapman Sisters.) still bloom in Washington, despite rain and snow.

N. L. Angier, State Treasurer of Georgia, is expected to-day.

The Air-Line Railway Bill was up in the House to-day, and again postponed.

A new Jerseyite has increased the treasury conscience fund $50.

Some one has "garbled" documents relating to the sale of Shawnee lands. An investigation is called for.

An Atlanta special in the Chronicle this morning, charges J. E. Bryant with attempting to ostracise Union men in Georgia.

There was great joy here to-day, over the announcement of the safety of the steamer City of Boston. Late dispatches deny the report of her arrival in Liverpool.

The Morning News, a sprightly penny newspaper of this city, died this morning, wreathed in smiles, and kicking at nobody.

George Butler, "the nephew of his uncle" Ben, was confirmed as Consul General to Egypt, yesterday, but a motion to reconsider followed, and the nomination "hangs fire."

The tariff bill in Congress is said to be "pregnant with danger to commercial prosperity and the Republican party." The latter would have free mourners.

The negro news boys cry their wares to-night as follows: "Three cheers for Senator Revel's speech!"

GEORGIA.

Divers Things About Us From Sundry Sources.

THE REAL CONTEST TO BE IN THE HOUSE.

I learn to-day from a trustworthy source that the real contest in the Senate upon Georgia will be between the bill as it came from the House, and a proposition to remand the State back to a territorial condition, with the chances in favor of the latter.—*Wash. Cor. Baltimore Gazette.*

GEORGIA HAS A TERRIBLE TIME.

What a terrible time the brethren are having with Georgia, to be sure. Alone and single-handed, she has been tilting against piebald reconstruction in all its guises, and has gotten the better of the saints at almost every pass, winding up on Tuesday last by so memorable a performance as hurling the heretofore invincible B. Butler clean out of his saddle. Ben and his brethren put a nest of negroes into the Legislature, and Georgia marched 'em out, even as A. Ward dismissed his pea-green ox which rubbed the paint off himself, to resume agricultural pursuits. Mighty in ire, Benny, et al, re-reconstructed the whole thing over again, and the end of it is that Ben is no longer the chief, Butler, but ousted as fully out of his leadership as his Senegambian proteges in Georgia were out of their seats.—*N. Y. World.*

HOW REVELS WAS HELPED.

The effect of Revels' speech was heightened in a singular way. Without it was blowing a gale, and the tin upon the roof of the Senate Chamber having become loosened, it rattled violently at intervals, producing sounds similar to theatrical thunder.—*Washington Correspondent Baltimore Gazette.*

PENNSYLVANIA WHISKY LUGGED IN ABOUT GEORGIA.

WASHINGTON, March 15, 1870.—In the Senate this morning, Mr. Stewart resumed his remarks on the Georgia bill, interrupted yesterday by the executive session. The galleries were not near so crowded as yesterday, nor were there so many negroes present. Bullock and his brother carpetbaggers occupied their usual seats on the Senate floor. Mr. Stewart's speech was very long and prosy, and was not listened to by half a dozen Senators.

The appearance of the Senate, with its many vacant seats, and Senators reading, writing or chatting together, reminded one of the days when Sumner delivered his speeches and other people's ideas on the financial question. Mr. Stewart concluded by fearing that the rebels should not be allowed to reconstruct Georgia. Mr. Edmunds expressed his surprise that Mr. Stewart, the inventor of the bill for removing all disabilities, should have expressed such views. Stewart retorted that he was willing to pardon past offenses, but not new ones. Edmunds replied that the invention was ingenious, at all events. You take away the disabilities of the people and then deprive them of the privilege of voting, by making the Legislature perpetual. He thought the invention might also be applied to Northern States where there are Republican Legislatures. It might be well also to extend the terms of Republican members of Congress, where there was a possibility of Democrats being elected at the expiration of the present terms. An incidental reference to the whisky insurrection in Pennsylvania called up Mr. Cameron with an explanation, after hearing which Mr. Edmunds made amends by saying that the whisky made in that State was so good that the people would be warranted almost any day in getting up an insurrection to defend it. Resuming his remarks on Georgia, Mr. Edmunds opposed, on various grounds, the proposed extension of official terms in Georgia, and denied that it was necessary, authorized or calculated to protect in any way, as alleged, the interests of the loyal people of Georgia.—*Washington correspondence Baltimore Gazette.*

THE CRY OF OUTRAGES, AND THE REASON.

Troops are called for in North Carolina, a new Georgia bill is on the stocks, and martial law must be proclaimed in Tennessee. The old cry of "outrages" is the excuse—outrages which are only committed in Radical causes, and make their first appearance when telegraphed from Washington to all parts of the country; but the real moving cause is party ascendency. As to Georgia, whenever reconstruction is declared complete there, seven Representatives are to be elected, and the necessity of having the thing fixed so as to insure Radical members beyond a pendventure, before loosening the grip, ran be at once seen; and perhaps, but for the habit, the declaration would be distinctly made that Congress means to reconstruct, and re-reconstruct, and reconstruct again, any State or States needing these processes to keep Radicalism on top. In the case of Georgia, this doctrine was covertly put forth; now, in the case of Tennessee, it appears with only the merest pretence of a disguise, and is no doubt intended to be the distinct policy of the Radical leaders henceforth.

REVEL'S SPEECH.

A gala day in the Senate. You will receive a full report otherwise. Revels (the mulatto Senator) exhibited himself. His "speech" was roughed out by "Governor" Bullock, and received its rhetorical polish from Sumner. The orator was trained, as to delivery, including gestures and by-play, by Drake and Stewart. After all, however, he could but disregard Hamlet's advice to the players: "Speak the speech, I pray you, as I pronounced it to you—trippingly on the tongue." The poor fellow awfully "mouthed" the King's English. Everybody seemed to pity him, and curse the hypocrites who have brought him to his present pass.—*Wash. Cor. Baltimore Gazette.*

AN INTERESTING DEBATE.

Mr. Stewart, (rep.) of Nev., continued his remarks, commenced yesterday, upon the status of affairs in that State.

Messrs. Stewart and Edmunds addressed the Senate upon the status of affairs in Georgia, the former against and the latter in favor of the Bingham Amendment, limiting the terms of the present Legislature and Governor. At ten minutes to four o'clock, Mr. Edmunds still held the floor. He opposed the Bingham provision on the ground that its effect would be to prolong the work of reconstruction in Georgia and create a state of things similar to that which now existed in Tennessee. He argued that the State Government should be considered as provisional only, until fully represented in the halls of Congress, and consequently that the terms of the present State officers should date from such representation. He referred at length to the previous bad faith of the State regarding the laws of Congress and the 14th Amendment, and said it was his determination never, by his own vote, to allow rebels to reconstruct the State.

Mr. Edmunds proceeded to argue that the terms of the Legislature and Governor dated from July 20th, 1868, at which time the military commander in Georgia turned over the State Government to the civil authorities previously elected by the people, having been elected, in the language of the State Constitution, until the next succession, which was two years, therefore their terms would expire during the present year. He acknowledged their regulations attending the present organization; but said these would end with the existence of the body and the election of its successor by the people. It was now proposed to prolong the existence of this body, some of whose members were minority candidates, and would never be elected to their seats. The argument made use of was that an election could not be held without tumult or violence. The answer to that was that Congress was bound to secure to every citizen of Georgia the full exercise of his rights. The omission of this proviso limiting official terms would, he thought, be an invitation to commit such violence, while its incorporation in the bill would operate as a preventative.

He said the great difficulty in Georgia—the real reason why life and property were not protected—was the fact that the public sentiment was averse to the administration of the law; that judges and juries would not administer it to the letter. This was the great, perhaps the only, defect of a democracy government, that in certain localities at times the requirements of law were compelled to give way before the demands of the public. In view of the State constitution of Georgia, the fifteenth amendment declaring who shall vote there, and the power of Congress to make that amendment effective if necessary by additional legislation, he failed to see anything tangible in the apprehensions of danger in the cause of civil rights in that State. At all events, it would be better that she should go democratic ten thousand times over than that Congress should, in the face of an intelligent country, to say nothing of considerations of candor and truth, attempt to overthrow the settled course of practice in this respect.

Mr. Drake offered an amendment to the bill providing that whenever any of the Legislatures of the late rebel States or Governors thereof, when the Legislature cannot be convened, shall represent to the President that organizations exist therein for the perpetration of acts of violence against persons and property, to obstruct the laws and State Government, and it is unable to suppress such violence or obstruction, it shall be the duty of the President to furnish United State troops for the subjugation and dispersion of such organizations. Upon the arrival of such troops in the districts in which these organizations exist martial law shall be declared, a levy made upon the inhabitants to pay the expenses of transportation of such troops, and they shall be subsisted upon the inhabitants.

THE DAILY CONSTITUTION,

THE LARGEST CITY, COUNTRY AND STATE CIRCULATION.
DEFIES REFUTATION.
BY W. A. AVERY, EDITOR.
ATLANTA, GEORGIA, MARCH 20.
MORNING EDITION.

Mr. Conant's Letter.

Our statement that Gov. Bullock was the party who had garbled Judge Avery's dispatch, was not drawn from Mr. Conant's letter.

Not Literary.—The removal of Oglethorpe College to Atlanta, hangs fire. Some think the Gate City prefer open the halls of learning.—Chicken Appeal.

Hold up, brother Jones. Go it mildly. The money is raised to bring the college here. You are wasting ammunition.

The Indian Massacre.

The Northern papers are scoring Sheridan heavily for the Piegan massacre. The details of the affair show the brutal extinction of ninety women and fifty children. The history of savage warfare is more striking, example of inhuman barbarity.

Mr. Whitaker.

Mr. Whitaker, the former book to Carnline, to stump his district for reelection to Congress. He has met cold comfort. At Sumter he was denied the privilege of speaking in the Court House, one fellow declaring that—if he is not fit to speak in the Court House."

He made a short speech to a small crowd in the open air, and treated little enthusiasm.

What is the Matter?

The Washington correspondent of Brick Pomeroy's paper, tells the following about Senator Saulsbury:

"It has been said that Senator Saulsbury, of Delaware, has not occupied his seat since the negro was admitted. Such is exceedingly the fact, as Mr. S. invariably occupies a sofa except when addressing the Senate. He is not the least disturbed by the presence of the black man—in fact, wanted him to sit with the Democrats."

A Matter of Taste.

Senator Morton thinks that the Senate has adjourned by Friday week, the reports in the Courier-Journal to the contrary notwithstanding. Davis, the White statement and patriot.

The blizzard prices carrion above the sweet could crave. We have no quarrel with him. He can't help it; nor can the buzzard.

Georgia.

The following is a special from Washington to the Courier-Journal:

"There is no prospect of a vote on the Georgia bill in the Senate this week. In the meantime the conservative Republicans are making some headway in correcting the misstatements sent from Georgia recently by outside parties. It was shown to-day by Senator Morton, who has been closely following to give the views of the Conservative press of that State has been garbled and distorted so as to convey their comments on the pending bill. The State Treasurer of Georgia has returned here, and corrects many misstatements that have been made to influence the Senate."

A Radical View.

The Louisville Commercial, (Radical) thinks that the Fifteenth Amendment—

"If some of our more radical readers think that the school boys will, in after ages, spout Revels' rhetoric for exhibitions. He indulges in a long prophecy that the scene will become bitter."

The crowning compliment, however, is the following, which shows that Forrey inhibits the African intellect about as completely as the Democratic papers do that of the white:

"Let the spirit of the Democratic papers for use in Washington. It keeps up a running fire of comment upon those matters which ought to be to give a political meaning to the passage that will answer the purpose of Bullock in Washington.

Anything that equints at intolerance, joy over the Bingham amendment, or anything else that can be perverted to partisan use, is avidly seized, and garbled and colored into shape for use in Washington.

To give an instance: committee work as published in the Democratic papers, is the intervention of Senator Revels with the whole philosophy of reconstruction. As for correction, that is out of the question. The Senator Bill has no horse ridicule, and reminded in Democratic papers, that crow over the downfall of Radicalism.

Now, if our contemporaries will just drop prophecy and confine their comments to present affairs, they will furnish less material for the slanderers to distort.

It will be observed that the Radical organ in Washington is not quoted from. Its comments are not worth the paper they are printed on. The organ next morning coolly called Bullock to order.

The Democratic papers are so thoroughly demoralized by their calls for Senator Revels to speak, that the ATLANTA CONSTITUTION favored the Democratic papers for use in Washington, that ever over the downfall of Radicalism, in all the Democratic papers, but they are so thoroughly demoralized by their calls for Senator Revels to speak, that the ATLANTA CONSTITUTION favored the Democratic papers for use in Washington.

The Shandler Mill.

The Shandler Mill will work. It keeps Forney's Chronicle well supplied. A dozen other things, we notice that it telegraphs garbled extracts from the Democratic papers, that crow over the downfall of Radicalism, in all the Democratic papers, but they are so thoroughly demoralized by their calls for Senator Revels to speak, that the ATLANTA CONSTITUTION favored the Democratic papers for use in Washington. It keeps up a running fire of comment upon those matters which ought to be to give a political meaning to the passage that will answer the purpose of Bullock in Washington.

Forney Enraptured.

Col. Forney, of the Washington Chronicle, views negotiating in Bullock's interest. He, however, has received the last drop to his cup of bitterness. He grows melo-dramatic over it. For a week or so, he has not only been running "my two papers, bob daily," but he has been filled up the Radical organ. And we shall probably continue to have Forney intoned on his own account. In the meantime the organ waxed the deed in after ages, spout Revels' rhetoric for prophecy that the scene will become bitter.

The crowning compliment, however, is the following, which shows that Forney inhibits the African intellect about as completely as the Democratic papers do that of the white:

"To the young practitioner, he was an object of interest, and he was ever ready to give counsel and encouragement.

He was a man of great urbanity of manners, and a true friend. Possessing a kind heart, a frank and indulgent nature, humane and charitable, he was ever ready to relieve the distressed, and to minister to the wants of the needy. Intelligent, liberal and public spirited, he was ever ready to contribute to the support of every enterprise calculated to promote the welfare of the community in which he lived. Modest and unassuming, he never sought office, but was frequently called upon to fill positions of honor and trust, which he filled with credit to himself and satisfaction to his fellow citizens.

THE DAILY CONSTITUTION.

ATLANTA, GEORGIA, MARCH 20.

MAYOR OF BOLTONVILLE.—Hon. J. David Collins, Mayor of this flourishing little city, was in the city yesterday.

PEACH BUTTER.—We are indebted to J. C. Stuart for a fine sample of peach butter, manufactured by him in Atlanta. It is a good institution, and should be patronized.

COLLIDED.—A dray and engine collided at Whitehall crossing yesterday evening. The engine is still in running order, but one of the mules is not, owing to a broken leg.

PERSONAL.—Col. John A. Bohler, Tax Collector of Richmond county, for the past half century, and other gentlemen from Augusta, passed through Atlanta yesterday, en route to Selma, Ala.

CHANGE OF SCHEDULE.—The schedule on the Western and Atlantic Railroad, on and after to-day, will be changed as follows: Leave Atlanta at 7 P. M., 8:45 A. M., and 3:20 P. M. Arrive at Atlanta at 4:45 A. M., 8:17 P. M., and 11 A. M.

BOWDEN COLLEGIATE INSTITUTE.—Col. Isaac W. Avery, our "heavy" Editor, has accepted an invitation to deliver the Commencement Address of Bowden Collegiate Institute, on Wednesday after the first Sunday in July next. The exercises promise to be highly interesting.

A HANDSOME BILL.—We have been shown a bill issued by the city of Macon, of the denomination of five dollars, which is certainly the handsomest article "just out." It is redeemable in currency when presented. Macon always does the thing up Brown.

HOMICIDE AT DALTON.—John Edwards, Engineer on the State Road, was shot and killed at Dalton on Friday last, by a man named William Black. Edwards and Black had a difficulty the day previous. Edwards was on the engine Choctaw when it blew up.

ACCEPTABLE PRESENTS.—Messrs. E. H. Butler & Co., publishers, of Philadelphia, have presented, through W. A. Slaymaker, a set of Mitchell's new outline maps to the Young Men's Library Association.

Messrs. Duffie & Chapman, publishers, of Columbia, South Carolina, have also presented them through Colonel T. Stole Farrow, with Reynolds' series of school books (readers and spellers.)

They are valuable presents, and highly appreciated by the Association.

SUPREME COURT.—*Evening Session.*—March 19, 1870.—Argument was resumed and concluded in No. 4 Middle Circuit, which had swapped places with No 2.

No. 3 was next called—it is Walter S. Frain vs. the State. Larceny from city court of Augusta. McLaws & Gamble for plaintiff in error; James C. C. Black for the State.

Pending the opening argument the Court adjourned till 10 o'clock A. M. Tuesday next. Monday is consultation day as usual.

OUR VIGILANT POLICE.—On Friday night, the overcoat, shawl and hat of J. S. Hall, were stolen from the boarding house of Mrs. Redwine, corner of Hunter and Forsyth streets, by two colored thieves, Charles Low and Sebe Wright. But the Argus eyes of Capt. Tim Murphy was on them, and in one hour after the theft, he had arrested them. They were caught at the Keno rink.

They were brought before Justice Spencer yesterday, on the charge of burglary.

Charles Low was tried, found guilty, and sentenced to 11 months on the work gang.

Sebe Wright plead guilty, and was sentenced to 6 months on the work gang, or a fine of $100.

Sidney Dell, for the prosecution; M. P. Byington, for the defense.

BUSINESS OF THE GEORGIA RAILROAD.—The energetic and thorough going Agent of the Georgia Road, Gen. G. T. Anderson, gives us the annexed statement of the shipments of the following articles over the road, for the week ending March 19th:

Pounds Corn	1,197,47
Pounds Wheat	803,990
Pounds Flour	788,800
Pounds Bacon	541,600
Pounds Lard	94,800
Pounds Cotton	445,500
Total pounds for the week	3,153,870

Other freights will make fully as much as the above, and, I think, more.

This has been the lightest week's work we have had in two months. Up freights not included.

SECOND ROUND OF QUARTERLY CONFERENCES, ATLANTA DISTRICT.—Felton Circuit and Trinity Church, Atlanta, fourth Saturday and Sunday in March; Wesley Chapel and 3d and 4th Ward Mission, Atlanta, second Saturday and Sunday in April; Conyer's Circuit, fourth Saturday and Sunday in April; Evans' Chapel and Payne's Chapel, Atlanta, 1st Sunday in May and Saturday before; Jasper Circuit, 1st Sunday in May and Saturday before; Covington and Mt. Pleasant, second Sunday in May and Saturday before; Atlanta Circuit, 5th Sunday in May and Saturday before; Lawrenceville Circuit, 5th Sunday in May and Saturday before; Oxford Circuit, 1st Saturday and Sunday in June; Monticello Circuit 1st Saturday and Sunday in June.

Rev. D. J. Myrick is expected to attend the conferences for his own station (Covington and Mt Pleasant) and for the Jasper Circuit; Rev. Mr. M. Crumley, the conference for the Atlanta Circuit and Prof. Josiah Lewis, of Emory College, the conference for the Lawrenceville Circuit.

Editor Constitution, Atlanta, Ga.: I notice in the Griffin Star of the 4th inst., an extract from the Atlanta *New Era*, which is said to have occurred between Governor Bullock and Mr. Lester, one of his Secretaries, on the subject of the means used to prevent me from qualifying as a member of the Legislature. The character of that correspondence is such, it would seem, as to demand some reply from me, inasmuch as the letters of Mr. Lester is a flat denial of the facts stated in an affidavit filed by me, while in Atlanta.

I have only to say that my affidavit contains nothing but the truth, and that Mr. Lester's statements, as set forth in his letter to Governor Bullock, is a mere batch of evasive falsehoods. I am able to prove by reliable testimony, other than my own, facts and circumstances corroborative of the statements contained in my affidavit before alluded to, and I can prove by other testimony, if necessary, beyond any question, the falsehood of the statements contained in Mr. Lester's letter, above alluded to. The truth is, that I had no acquaintance with Mr. Lester, until he came unasked and unannounced, and led me into the Executive office, and assured me that if I qualified, I would certainly be prosecuted.

Lester took hold of me and led me away from Colonel Fain, with whom I was at the time conversing, without speaking to either of us. Colonel Fain was left standing alone in front of the door of the Executive office. There was no one in the office, except Lester and myself, during the principal part of the conversation. Col. Fain followed us into the office after some minutes. Mr. Lester says, in his letter, that he was asked by either myself or Col. Fain "if those men who were ineligible, really, would be prosecuted, provided they took the oath of eligibility." No sane man would have asked such a question, and it was one in which I would have felt no interest, for I never felt or believed, at any time, that I was really ineligible. I have probably exhibited a weakness in yielding to influences however unfairly exerted, when I felt conscientiously that I could legally qualify, which I should have set at defiance, and I can only say in explanation of it, that I felt unable at my time of life to undergo the excitement of a criminal prosecution, which I was assured would ensue.

LOUISVILLE, KY., March 17.

FLOUR—The market to-day has been very inactive, and transactions have been of limited importance. Dealers report prices steady, and stocks are fully up to the requirements of the trade. Sales include 300 bbls assorted grades at quotations.

WHEAT—No improvement is visible in the market, and we find it difficult to give accurate quotations, as actual transactions are confined to small lots. Prices are unchanged and we continue to quote white amber and red at 1 10@1 20 per bushel from store, and the same grades command 1 00@1 05 per bushel on arrival.

CORN—Dealers report an active demand, and the supply is amply sufficient to satisfy the demand of customers. Prices rule firm, though not quotably higher. Sales to-day include 1,000 bushels of shelled corn, sack sincluded, at 93@95c per bushel. We quote choice shelled corn at 93c, sacks included, and inferior grades at 93c from store; ear corn lastendy at 77@80c per bushel from store, 70@75c on arrival.

BACON—Is scarce and the demand is moderate. Clear sides are offered at 15¾@16; clear rib at 15¾@15¾, and shoulders at 11¾@11¾ per lb, packed. Hams are in light demand, and sales are made at 17¾@18¾ per lb for canvased sugar cured hams, packed.

BULK MEATS—Are in light request, and prices are unchanged. We quote clear sides at 14 3-4@15, clear rib at 14 1-4@14 1-2, and shoulders at 10 1-4@10 1-2 per pound, packed.

LARD—Is in good jobbing demand, and stocks are sufficient to supply the wants of customers. We quote prime leaf lard in tierce at 15@16 per lb, and keg lard commands 16 1-2@17 per pound.

CINCINNATI, March 16.

The cutting of hogs for winter packing has virtually closed for the season, but the returns as yet have not been made public, and it matters little whether they are ever published or not. The crop is so much in excess of that anticipated, that correct returns can not be arrived at this season. The packing at this point as published by the "Price Current," is a farce and valueless for statistical purposes. The editor gives us the total receipts exclusive of shipments, for the season 368,544 hogs, counting 50 hogs to the car, but when he makes up his estimate of the packing, he finds that the hogs were so very heavy this season that they could only get 40 instead of 50 to the car, yet he makes the increase in weight only 12 pounds per hog, or 2 hogs to the car over 40, his estimate of the Cincinnati packing is 337,330 hogs, with 12 lbs increase in weight which would make 335,300 hogs of last year's weight. Statistics, unless positively correct, are as dangerous to work on, as edge tools to handle, and I would advise the trade this season to pay very little attention to them. The high price paid for the hog, the large crop, and the heavy loss which the packer is now realizing will forever stifle correct statistics.

We have hog product enough to supply the world and in our great Western farms we are raising the hog and marketing them daily, and will all the year round. Buy what you want, and as you want it, at current prices, and it may prove as profitable in the end, as to have worked on false statistics in hopes of large profits. Our market has been in a very unsettled condition all the season and even yet, with a fair order demand, it continues in the same fix, buyers and sellers seem to have lost confidence in themselves, and are as changeable in their views as the winds. Quotations given below are the buying prices of to-day, but in the nervous state of the market, they may change either way at any moment.

MESS PORK—Was held firmly at 26 50, but there were no buyers over 26 00@26 25; country 25 to 50c less than city. Rumps 20 00@24 00, as in quality.

LARD—Is held firmly at 14c for kettled, but buyers only offer 13¼@13½c; keg 16½; prime steam scarce, held at kettle price; refined lard, in tierces, 14c, half bbls 14½c, kegs 15½; none ready for immediate shipment; in 3 and 5 lb caddies 16½, 10 lb do. 16 cents.

BULK MEATS—Quiet but firm, 9½, 13, 13¾, 14c, loose, or ¾c more packed for shoulders, clear rib and clear sides; hams 13, sugar pickled 14.

BACON—Shoulders 11c; rib sides 14¼c; clear rib 14¾c; clear 15¼c; sugar-cured hams 16¾@18, as to standing of brand.

CORN—Market easier 86@87 in new gunnies.

OATS—At 55@57c, including sacks.

FLOUR—Market quiet; low grades scarce at 3 75@4 00; superfine 4 20@4 40; extra 4 50@4 75; family 5 00@5 50; fancy 5 75@6 00.

WHISKY—Dull at 92c.

NEW ORLEANS, March 16.

SUGAR AND MOLASSES.—The receipts this morning comprise 227 hhds. Sugar and 313 bbls. Molasses. The market is dull and unchanged, and we quote inferior Sugar at 6 1-2@7 1-2; common 8@8 1-2; low fair 9; good fair 9 1-2@10; fully fair 10 1-2@10 3-4; prime 11@11 1-4; choice 12@13 1-4; yellow clarified 12 3-4; white 13 3-4@14 cents. Inferior fermenting Molasses 35@39; good fermenting 40@45; prime to choice fermenting 50@55; rebolled 62 1-2 cents per gallon.

LYNCHBURG, VA., March 16.

TOBACCO—Market more active for some days past, but without any advance. Receipts of hogsheads increase slowly—but little loose coming in. We quote—Lugs, dark, 6 50@7 50; good, 7 00@8 50; Leaf, short, dark, 9 00@10 00; long, dark, 11 00@13 00. Medium bright lugs, 9 00@10 00; fancy ditto, 12 00@13 00; medium bright wrappers, 15 00@18 00. No fancy offerings.

PETERSBURG, VA., March 18.

In consequence of light receipts of both hogsheads and loose tobacco during the week, the market has been more active and prices rule higher for all grades. There has been some small parcels of bright tobacco sold during the week at prices ranging from [illegible]

JOY TO THE WORLD! WOMAN IS FREE! Among the many modern discoveries looking to the happiness and amelioration of the human race, none is entitled to higher consideration than the renowned remedy, Dr. J. Bradfield's Female Regulator, Woman's Best Friend. By it woman is emancipated from the numberless ills peculiar to her sex. Before its magic power all irregularities of the womb vanish. It cures whites. It cures suppression of the menses. It removes uterine obstructions. It cures constipation and strengthens the system. It braces the nerves and purifies the blood. It never fails, as thousands of women will testify. This valuable medicine is prepared and sold by L. H. Bradfield, Druggist, Atlanta, Ga. Price $1.50 per bottle. All respectable drug men keep it.

KOSKOO.—This medicine is rapidly gaining the confidence of the people, and the numerous testimonials of its virtues, given by practitioners of medicine, leaves no doubt that it is a safe and reliable remedy for impurity of the blood, liver disease, etc.

The last Medical Journal contains an article from Prof. R. S. Newton, M. D., President of the E. Medical College, city of New York, that speaks in high terms of its curative properties, and gives a special recommendation of Koskoo to the practitioners of medicine. This is, we believe, the first instance where such medicines have been officially endorsed by the Faculty of any of the medical colleges, and reflects great credit upon the skill of Dr. Lawrence, its compounder, and also puts "Koskoo" in the van of all other medicines of the present day. feb26-d&w6m

SHAKING AND BURNING.—It is not necessary to journey from the tropics to Alaska in order to experience the extremes of heat and cold. Thousands undergo all the inconveniences of this thermometrical change every day, or every other day, as the case may be, without the trouble of moving over the threshold. A word with these involuntary shakers. What are they doing to expedite their return to a medium temperature—to break the chills and banish the fever? Are they dosing themselves with quinine, thereby imperilling the soundness of their bones and impairing the vigor of their brains and nervous system? Some of them are no doubt, but not the majority of them, it is believed. The value of Hostetter's Stomach Bitters as a harmless and certain specific for fever and ague is understood and appreciated in all parts of the country where intermittents prevail. The residents of such localities begin to take it early in the spring as a protection against the miasma by which they are surrounded; not all of them, perhaps, for a blind adherence to error is the specialty of some people, but not the greater number.

If there is any fixed facts in therapeutics, it is this: that the Bitters are a far better safeguard against all the varieties of periodic maladies produced by unwholesome exhalations than any drug or compound in the materia medica of the profession. This assertion is made with all due respect to the faculty, but being an important truth, and one that nearly concerns the health of large settlements in various parts of the country, and indeed of the public at large, it is made fearlessly. Founded on ample and unimpeachable testimony, it defies disapproval.

To break up chills and fevers, as well as to prevent them, there is nothing so reliable as this wholesome vegetable restorative. mh15-deod1w&wlt

WIVES AND MOTHERS.—Only woman knows what women endure; and if there be any means of assuaging the distress of body and mind which so many thousands experience day after day and week after week, with a fortitude which puts to shame the boastful courage of man, who will deny that so great a blessing to the sex should be found in every household?

Millions of men have been benefited by its use, but among the feeble and sickly of the opposite gender, who perhaps need it most, its virtues are not so widely known. This foremost remedy of the age—this specific for every species of debility, general or local, constitutional or casual, is PLANTATION BITTERS. One right of woman, at least, will be conceded—the right to strengthening herself to sustain the ills of which the laws of nature have made her the unfortunate heiress.

The acknowledged healthfulness, unrivaled flavor, delicacy, great convenience, and extraordinary cheapness of SEA MOSS FARINA, will always keep it in the foremost place among articles intended for a table-dessert. mh15-deodlw&wlt

KOSKOO!

1ST THE GREAT REPUTATION

Which KOSKOO has attained in all parts of country

AS A GREAT AND GOOD MEDICINE!

And the Large Number of Testimonials

which are constantly being received from Physicians, and persons who have been CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE,

AS A BLOOD PURIFIER,

IT HAS NO EQUAL,

BEING POSITIVELY

The Most Powerful Vegetable Alterative Yet Discovered.

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues loose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in roughness of the skin, then in scurvy and SCROFULOUS diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or Urinary Apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are effected with scrofula in some form.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO,

AS A

Liver Invigorator!

STANDS UNRIVALLED.

Being the only KNOWN Medicine

that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, WITHOUT DERILITATING the system. While it is *certain to relieve* upon the Liver *in fond of copious purging it gradually changes* the discharges *to a perfectly natural state.*

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes, headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, tearing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the side, back, or breast, and about the shoulders; constipation of the bowels; piles, fulness, coldness of the extremities, etc.

KOSKOO!

Is a remedy of *Wonderful Efficacy* in the *cure* of diseases of the Kidneys and Bladder. In these Affections it is as near a specific as any remedy can be. It does its work kindly, silently, and surely. The Relief which it affords is both certain and irresistible.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys can not estimate the *importance* of their *healing action.*

Regular and uniform action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored, or scalding, with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the Urine being imperfectly secreted in the Kidneys, proves irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys through the general circulation of the Blood, we see how necessary it is to Keep the Fountain of Life Pure.

KOSKOO!

Meets with GREAT SUCCESS in the CURE of

DISEASES OF THE NERVOUS SYSTEM,

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and unfortunately, tobacco, alcohol, late hours, over-work (mental and physical), are causing a disease of the nervous system to increase at a fearful rate.

The symptoms to which diseases of the nervous system give rise, may be stated as follows:

A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical Headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during sleep; Bad Dreams; Hesitation in Answering Questions; Dullness of Hearing; Twitching of the Face and Arms, etc., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, etc., etc.

HENRY'S

CARBOLIC

CONSTITUTION RENOVATOR,

—OR—

BLOOD CLEANSER!

This medicine is known to the faculty as being the concentrated fluid extract of Sarsaparilla united with

CARBOLIC ACID

For the Cure of

SCROFULA and CONSUMPTION.

This remedy is compounded expressly for purifying and cleansing the blood of all impurities, going at once to the fountain head of disease. It extinguishes

Tumors, Consumption, Syphilis, Skin Eruptions, Salt Rheum, Boils, Rheumatism, Waste of Vitality, Scrofula.

We all know that the promiscuous vaccination indulged in during the late war, bred the most villainous diseases. Vaccination pus was taken from the arms of many full of scrofulous sores.

Then of course the impurities of the scrofulous patient were absorbed in the blood of men otherwise without disease, and both became infected alike. Men, women and children throughout all the west are most woefully dissected from this cause, and knew not until a few months ago, the origin of it.

HENRY'S CONSTITUTION RENOVATOR

Relieves the entire system of Pains and Aches, enlivens the spirits, and sends new blood bounding through every vein. It imparts a

Sparkling Brightness to the Eye.
A Rosy Glow to the Cheek.
A Ruby Tinge to the Lips.
A Clearness to the Head.
Brightness to the Complexion.
Buoyancy to the Spirits.
And Happiness on all Sides.

For all affections of the kidneys is unsurpassed. People have been rescued, as it were, from the very jaws of death, by a timely use of this great remedy.

EXTRACTS FROM VARIOUS LETTERS.

"I was vaccinated in hospital. Before that I had no skin disease. Until I had a bottle of your Constitution Renovator sent me by Mr. Roper, of Columbia, Mo., I suffered tortures with running sores, since I used two bottles, I am all well except a small sore on the calf of my leg, and that is getting well fast."

This is from a lady: "And now my skin is as clear and fair as a babe's. My complexion, thanks to your Renovator, is beautiful.

"Yes, yes, I may say such relief was unknown to me before. Enclosed find five dollars for six bottles. Two families here want to try it."

"I was very much troubled with syphilis. Your remedy seems to be curing me fast. Send four bottles per express."

"No more rheumatism. Three bottles of Constitution Renovator have made me a new man."

"Doctor, enclosed find $5. Please send me a supply. Two families here want to try your Constitution Renovator."

We have not space for more of the above extracts, but you

THE ATLANTA CONSTITUTION.

Respectfully Dedicated to the Author of the Recent Edition of

"SOMETHING NEW"

BY GRACE GLOSER CRITTER.

For The Constitution.

Yes, "what is new to this wise race?"
It's well to ask the query;
I'll tell you what would be, Sir Fred,
A novelty, I trow;

If all mankind so dignified,
So proud because so human,
Would pause, and try to find the faults
Of *self* as well as woman.

Why Editors, Contributors,
Reporters too, you see,
Could never crowd it all in print
In a whole century.

You're right, I think I did conclude
Once, in my "weaker" brain,
That Adam rocked the baby, sure
That's why they called him *Cain*.

And yet they say poor Eve's to blame
For all that fearful fall!
Why could hope for single-sense
When man was there at all!

I know I asked for "awful" woes,
When pleading "something new;"
But pray don't for one moment think
I ever wanted *you*.

You with a name that's only "Fred,"
And maybe with a wife
Who wants to rid herself of you,
And live a peaceful life.

Long time ago best charity
Began at home, you see,
So don't be hasty to libel
My magnanimity

For everything that's in my power,

A DENIAL FROM MR. FECHTER.—*To the Editors of the Boston Daily Advertiser:* I read in some "bit" of paper sent me without a name from Boston, that they persist in calling Miss Leclercq my wife. Will you kindly and emphatically let them know that *my* wife and children are impatiently awaiting my return in Paris, where the education of both my girl and son require the mother's presence?

This false statement might mar the reputation of Miss Leclercq, whose honor I value as if she were indeed my sister in blood, as she is in heart. Very truly yours,

CH. FECHTER.

258 North Ninth st., Philadelphia, 9th March, 1870.

☞ A leading Radical negro, and a member of the Charleston (S. C.) Council, recently remarked:

"The colored man is by nature a Democrat; his sympathies are with the white laboring masses; and when the lapse of time shall have consigned to partial oblivion the animosities engendered by the war, the black race will be found shoulder to shoulder in the Democratic ranks."

HARD TO SATISFY.—Eugenie says that when she first became Empress, she intended to give a fresh impulse to luxury and commerce by surrounding the Court by a prestige of elegance and amiability; at that time she was called frivolous. She was thereupon desirous of becoming more serious, and to take an interest in the management of public affairs, in consequence of which she was called ambitious.

☞ Lost-cuss Pollard is explaining who killed the Confederacy, just as if everybody didn't know it was for the want of such able-bodied fellows as the historian in the ranks, who shirked out, preferring to write rather than fight.

☞ Don Piatt says the conclusions of the Committee on Banks and Banking, in regard to Grant's connection with the gold swindle of September last, remind one of the verdict of the Scotch Jury, "guilty, but not proven."

A NEW DISCOVERY!!

PHALON'S "VITALIA;" or, Salvation for the Hair.

CLEAR AS WATER!
WITHOUT SEDIMENT!!
OPEN TO THE LIGHT!!!

For Restoring to Gray Hair its Original Color.

PHALON'S "VITALIA" differs utterly from all the hair coloring preparations heretofore used. It is limpid, sweet smelling, precipitates no muddy or slimy matter, requires no shaking, imparts no stain to the skin. Hold it to the light and it is clear and colorless. It leaves no mark on the scalp; yet it reproduces in gray hair the natural color that time or sickness may have bleached out of it.

☞ Phalon's Vitalia ☜

is for one sole purpose, that of reproducing, with absolute certainty, the natural color of the hair. It is not intended as a daily dressing, nor for removing scurf or dandruff; nor for curing baldness; nor for stimulating the growth of the hair.—These objects may be accomplished after the color has been fixed with the Vitalia, by Phalon's Chemical Hair Invigorator.

THE VITALIA is a harmless and unequaled preparation for the reproduction of the original hue of gray hair, and nothing else. This is accomplished in from two to ten applications according to the depth of shade required. Sold by all druggists.

UNIVERSAL LIFE INS. CO.

—NEW YORK—

The Original Joint-Stock Life Ins. Co. of the United States.

The business of this Company is EXCLUSIVELY confined to the Insurance of first class healthy lives.

THE DISTINCTIVE FEATURE

of the Stock system of Life Insurance, as opposed to the Mutual, is a low rate of premium for a stated sum insured, which is IMMEDIATE, SECURED and CERTAIN; in lieu of a high rate of premium with a promised dividend, which is DISTANT, CONTINGENT and UNCERTAIN; this so-called dividend being merely a return of a portion of the excessive and unnecessary premium charged in the first instance.

ILLUSTRATION.

Suppose that an individual aged thirty desires to devote $200 a year for the purpose of effecting an insurance on his life; this amount will immediately secure him in the UNIVERSAL the sum of $11,751, payable on his decease. This sum, paid to a company charging the ordinary mutual rates, would secure him the sum of $8,474—*difference, immediately secured*, in favor of the UNIVERSAL, $3,277.

To illustrate the importance to the policy-holder of low premiums in more general terms, it may be stated that by a reduction of *twenty five* per cent. in the rate of premium, the same amount of money will secure a policy *thirty-three and one third* per cent. greater, and likewise that a reduction of twenty-five per cent in the rate of premium is precisely equivalent to an annual cash *dividend of thirty three and one-third per cent payable in advance*, or to a dividend of *forty five per cent* payable at the end of five years.

By the Stock plan the *full cash effect* of the premium is immediately secured to the insured, the Company taking all the risk. By the Mutual plan the policy holder pays in advance in insurance of the premium paid, is not secured to the policy-holder, who takes a portion of the risk himself.

THE PREMIUMS

charged by the Universal are as low as the actual experience of insured life in this country will justify, and on the ordinary Life and Ten-Year Non-forfeiture policies are nearly one-third lower than those charged by the majority of Mutual Companies.

Special attention is asked to our "*Return Premium Plan*," by which the amount of the policy is secured simply by the customary deposit of the annual premiums, which are returned in full, together with the amount of interest which the holder of the policy would have received, when it shall become a claim upon the Company. Also to the

"REDUCTION OF PREMIUM PLAN,"

by which a reduction of *one-third* is made in the premium after the first annual payment, being, in fact, equivalent to a *dividend* of 33½ per cent. A pamphlet explaining in full the policies issued by the Universal, in which these results are *distinctly asserted and guaranteed*.

THE WILLINGHAM FERTILIZER FOR COTTON, CORN AND WHEAT

THIS STANDARD MANURE, named after a well known practical Planter of Georgia and South Carolina, combines in a concentrated form all the fertilizing elements necessary for the production of COTTON, CORN and WHEAT, and by its use is certain to increase not only the yield but to improve the quality of the products. It is made with a special view to the wants of the soils of the South, and can be relied upon as to excellence of material, containing highly necessary substances, the great cost of which have heretofore precluded their being in common use. It can be depended on as uniform, always reliable, and productive of good crops.

ALBANY, GA., September, 1870.

Having a full knowledge of the composition and process of manufacture of the Willingham Cotton, Corn, Wheat and Rice Fertilizer, I have no hesitation in pronouncing it to be a most reliable fertilizer, one of the best in use, and most particularly adapted to the soil of Georgia and South Carolina.
